

# Q&A Trustworthy Online Grant Info for Startups

**Q.** Could you advise me on a resource for free online grant information for small business startups?

**A.** Use the search term “funding for profit business” at [www.grantsspace.org](http://www.grantsspace.org)

Note: You should get 12 matches that provide details on the foundation industry and the grant process for entrepreneurs.

**Warning:** Whether the funding source is private or government, many applications are discarded by reviewers because applicants fail to follow the submission guidelines, according to reference librarians.
