<http://www.payloadz.com/go/sip?id=2792125>

The final page count is 82 pages plus 60 + pages of resources and links for a total of 146 including cover, copyright and table of contents pages.

Although the goal was to revise the file for a count of 100 to 120 pages, there was little that I felt should be cut out.

New edition does not include collection of worksheets.

But a link has been included for readers to download the 23-pages in pdf format.

The book will include the story of a teacher who had to leave the classroom

because of hearing loss but went on to build a successful company as an educator.

**A customized version of Changing your Work or Career can be created on request.**

The resource and bibliography section can be sent as a separate pdf.
